To Our Alberta Customers

Re: Fuel Surcharge

Fuel Surcharges are meant to reflect the volatile changes in fuel costs. Our contracts with our carriers include a fuel surcharge. We must pass this charge to our customers as a fuel surcharge. With the recent increase in fuel prices, the fuel surcharge paid to carriers has increased. Therefore, **Effective November 8, 2009, Connect Logistics Services will increase the Fuel Surcharge Rate from .08 to .10 cents per case.**

We will continue to review the Fuel Surcharge Rate on a monthly basis. This increase and any future changes will be reflected on your invoices.

Our surcharge rate will reflect the charge from our carriers which will be based on the Freight Carriers Association Rates.

If you have any questions, please contact Vince Guido – 780-458-4496
